

DESCRIPTION

Specifically formulated and nutritionally balanced for foals and weanlings up to 12 months of age.

May be appropriate for older growing horses and mares consuming forages with less than ideal nutritional value.

15% protein, textured “sweet feed,” which features precise levels of lysine, calcium, phosphorous, copper, zinc, and other trace minerals to aid in the proper development of muscle and sound structure in the young, rapidly growing horse.

Precise formulation and sound feeding principles may help minimize the occurrence of nutritionally induced developmental orthopedic diseases such as epiphysitis.

FEEDING DIRECTIONS

Feed suckling foals no more than 1 lb per month of age. Feed weanling foals 1–1.5 lb per 100 lb of body weight. Refer to the feeding table below for typical intakes for weanlings and yearlings. Amount required will depend on horse’s metabolic rate, body condition, weight, average daily gain, etc.

- Limit meal size to 0.5 lb per 100 lb body weight.
- Feed in combination with a 1.0 - 1.5 lb of good-quality forage per 100 lb body weight per day.
- Allow free-choice access to fresh, clean water and salt.

SIZE OF HORSE	FEED INTAKE PER DAY (LB.)		
	400-600 LB.	1000-1200 LB.	1400+ LB.
EXPECTED MATURE SIZE			
SUCKLING FOAL	0.5-3	1-5	1-6
WEANLING	2.5-4	5-8	6-8
YEARLING	3-4	5-10	6-10

SAMPLE DIET

Age: Weanling (6 months)
Weight: 550 lb.

Equus Junior
Mixed Hay

6 lb.
18 lb.

INGREDIENTS

Whole Oats, Soybean Meal, Rolled Barley, Cane Molasses, Cracked Corn, Wheat Millrun, Dicalcium Phosphate, Dehydrated Alfalfa Meal, Calcium Carbonate, Vegetable Oil, Sodium Chloride, Sodium Bentonite, Choline Chloride, Saccharomyces cerevisiae, Zinc Sulfate, Vitamin E Acetate, Brewers Dried Yeast, Hydrated Sodium Calcium Aluminosilicate, Hydrolyzed Yeast, Manganous Sulfate, Copper Sulfate, Zinc Methionine Complex, Manganese Methionine Complex, Copper Lysine Complex, Cobalt Glucoheptonate, Ferrous Sulfate, Propionic Acid, Ammonium Hydroxide, Sodium Selenite, Sorbic Acid, Niacin Supplement, Benzoic Acid, Phosphoric Acid, Propylparaben, Vitamin A Acetate, D-Cal Pantothenate, Riboflavin Supplement, Methylparaben, Menadione Sodium Bisulfite Complex, Thiamine Mononitrate, Biotin, Vitamin B12 Supplement, Butylated Hydroxyanisole, Pyridoxine Hydrochloride, Vitamin D3 Supplement, Cobalt Carbonate

FEED ATTRIBUTES

- Moderate-calorie, highly palatable, textured feed with added fat for rapidly growing horses.
- Fortified with KER Micronutrients including:
 - Chelated trace minerals
 - Yeast culture

formulated by Kentucky Equine Research
